IN THE UNITED STATES PATENT & TRADEMARK OFFICE

IN RE APPLICATION OF: :
TOSHIHISA SARUTA : EXAMINER:
PATENT NO: 6,196,670 :
ISSUED: MARCH 6, 2001 : GROUP ART UNIT:
FOR: PRINTER AND INK CARTRIDGE :
ATTACHED THERETO

REISSUE DECLARATION

ASSISTANT COMMISSIONER FOR PATENTS
WASHINGTON, D.C. 20231

SIR:

I, Toshihisa Saruta declare that:

1. I am a citizen of Japan and have a residence and post office address stated below next to my name.

2. I have reviewed and understand the contents of the attached specification, including the claims, of the above-identified reissue application, and also including the amendments to the allowed claims, and new Claims 31-61 concurrently filed herewith.

3. I verily believe myself to be the original, first, and sole inventor of the invention described and claimed in U.S. letters patent 6,196,670 for PRINTER AND INK CARTRIDGE ATTACHED THERETO granted on March 6, 2001, to myself and in the foregoing specification for which invention I solicit a reissue patent including added Claims 31-61.

4. The entire title to said U.S. letters patent 6,196,670 is vested in Seiko Epson Corporation having a place of business at 4-1, Nishi-shinjuku 2-chome Shinjuku-ku, Tokyo, Japan.

5. I do not know and do not believe that my invention as disclosed and claimed in the present reissue application was ever known or ever used in the United States of America before the invention thereof by myself.

6. I acknowledge the duty to disclose to the United States Patent and Trademark Office all information known to me to be material to patentability as defined in 37 CFR §1.56.

7. I have previously claimed and still claim foreign priority benefits under Section 119 of Title 35 of the United States Code, based upon Japanese Patent Application Nos. 10-336330 filed November 26, 1998, 10-336331 filed November 26, 1998, 10-367490 filed December 24, 1998, 11-003993 filed January 11, 1999, and 11-296024 filed October 18, 1999, and have also previously identified and currently identify any foreign application for patent or inventor's certificate having a filing date before that of the application on which priority is claimed.

8. I believe that the original United States letters patent 6,196,670 is partly inoperative by reason of the issued claims of said letters patent claiming more or less than I had a right to claim.

9. As one example of an error being corrected by the present reissue application, independent Claim 1 of U.S. patent 6,196,670 recites the "memory writing unit" writes plural pieces of information relating to the cartridge into the rewritable non-volatile memory of the cartridge "at a preset timing and thereby at a certain frequency". It is unnecessary for patentability of independent Claim 1 to require any specific timing or frequency of the

"memory writing unit" to write data to the rewritable-non-volatile memory of the cartridge.

In that respect, Claim 1 has been broadened to delete the language "at a preset timing and thereby at a certain frequency".

10. Other examples of errors being corrected by the present reissue application are to further recite in Claim 19 that the information written into the non-volatile memory is "in response to a power down instruction occurred in the printer main body", and to add new Claims 31-61 for examination written in "means plus function" format.

11. All errors being corrected in the present reissue application arose without any deceptive intent on my part or on the part of the Assignee.

12. I believe that all claims in this application finds full support in the original specification.

13. I hereby appoint the following attorney(s) and/or agent(s) to prosecute this application and transact all business in the Patent and Trademark Office connected herewith: Norman F. Oblon, Reg. No. 24,618; Marvin J. Spivak, Reg. No. 24,913; C. Irvin McClelland, Reg. No. 21,124; Gregory J. Maier, Reg. No. 25,599; Arthur I. Neustadt, Reg. No. 24,854; Richard D. Kelly, Reg.
